

The ExoDx™ Prostate Test

**Available from
the comfort
of home!**

Our At-Home
Collection Kit lets
you take advantage
of the ExoDx Prostate
Test from the comfort
of home!

Get to know the ExoDx Prostate Test!

The ExoDx Prostate Test is a simple, non-invasive urine test that can help you and your doctor determine the need for a prostate biopsy. **The ExoDx Prostate Test provides actionable information** that aids the prostate biopsy decision for men in the PSA 'gray zone' of 2-10ng/mL, and is not dependent on PSA or other clinical risk factors.

Making the biopsy decision is an important consideration between you and your doctor because there are sometimes physical complications. The ExoDx Prostate Test will provide your doctor with important information to help you make this decision.

A photograph of a female doctor in a white coat and stethoscope, and an older male patient, both looking at a clipboard together in a clinical office. In the background, there is a medical cart with various supplies and a window.

**Do you
have
Elevated
PSA?**

**With the ExoDx Prostate
Test, a simple urine sample
of 15mL is all it takes to
provide an independent
data point for the prostate
biopsy decision.**

Know the Facts: Prostate Cancer is Treatable if Diagnosed Early

2 Men are Diagnosed in the USA with Prostate Cancer **Every 5 Minutes***

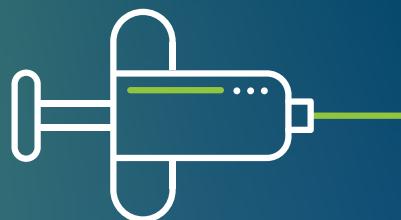

What Exactly is PSA?

Prostate-specific antigen, or "PSA," is a common blood test used as a screening method for prostate cancer in many men.

While PSA is not prostate cancer-specific, it is the standard of care to indicate prostate cancer risk and may lead to further testing.

You should know that there are limitations to PSA. Your doctor can help you decide if prostate cancer is present, and if prostate biopsy is necessary.

Take The ExoDx™ Prostate Test First

Before Prostate Biopsy

Interpreting Your Score is Easy.

The ExoDx Prostate score ranges from 0-100. If your score is above 15.6, there is a higher risk for clinically significant prostate cancer that needs further intervention, such as a prostate biopsy. Talk to your doctor about this procedure.

Considering a Biopsy?

The ExoDx Prostate Test can help you and your doctor decide what your next step should be before undergoing an initial or repeat prostate biopsy.

We've got you covered.

Introducing the ExoCARES Program: The ExoDx Prostate Test is covered by Medicare, Medicaid, several private insurance plans and the VA Healthcare system. We can help you navigate the complex health insurance system to determine if your plan covers the cost of the test.

We're here to help.

Talk to your doctor about whether the ExoDx Prostate Test is right for you.
